 Response Rate = 40.91%

1. UCLA Department of Mathematics:

1.1) How would you rate your TA as an effective teacher?

n=18  
 av.=8.83  
 md=9  
 dev.=0.51

1.2) How would you rate the availability and helpfulness of your TA outside of the classroom?

n=17  
 av.=8.82  
 md=9  
 dev.=0.39

1.3) What is your rating of this course independent of the effectiveness of the TA?

n=18  
 av.=8.56  
 md=9  
 dev.=0.7

2. Comments:

- 2.1) Please use the space provided for any comments you wish to make which are pertinent to the educational process. These may include all aspects of the course: teaching, examinations, grading, textbook, etc.
- Best TA I had during my time at UCLA. Discussion sections are well-organized and discussion supplements are nicely typed and useful. My only criticism is I wish the homework solutions were typed in LaTeX since it can be hard to read some of the handwritten solutions.
  - Every discussion was so well-prepared, organized, and helpful in understanding the material. The discussion supplements were wonderfully well organized and nicely typed; they were a lifesaver and an amazing reference when reviewing and doing the homeworks. The fast speeds at which the homeworks were graded and left with comments on the mistakes and at which the homework solutions were provided was so so helpful. You were very knowledgeable and great at explaining things and truly the best ta I've ever had in college. Thank you so much for your time.
  - Great Ta!!!Love him
  - Hong Kiat is an amazing TA. He is very helpful in disucssion sections and office hours.
  - Hong Kiat is definitely one of the best TA's in the UCLA math department. His discussions were always valuable to attend because he prepared and provided us with detailed supplements that contained important concepts and examples that were relevant to the course material. Not only is he very knowledgable in the subject, he was also extremely helpful outside of class and in office hours. I am very grateful to have had him as a TA as he helped make this course MUCH more manageable.
  - Hong Kiat is one of the best TA's I have ever had for any university course. He creates organized discussion notes/problems that perfectly reflect the material that is taught in lecture, which helps solidify

my understanding of the material. He also responds to questions very often online in Piazza. He is also very accommodating in terms of his office hours, extending them by an additional hour whenever needed. He also grades assignments very quickly.

Overall, awesome TA.

- Hong Kiat is probably the best TA I've had in the department. He was always super clear and helpful, and presented meaningful stuff in discussion that reinforced my learning. Office hours were plenty and he made himself available to students whenever they needed help.
- Hong Kiat is really an excellent TA! He is willing to extend his office hours if we have more questions. He is also very knowledgeable about the PDE topic and other math computation details. I can always understand a topic better after asking him.
- Hong Kiat is the BEST TA I have ever had. He knows the material well and his discussion supplements are super helpful. He's always approachable and clear in his explanations. I really appreciate how he spends tons of time after the time period of his office hours helping us on homework questions. Also I appreciate the idea of compiled student solutions and him trying to remember students' names, which encourages me a lot to keep working hard in this class. This is a class with difficult topics but the professor and TA make it genuinely enjoyable and intriguing :))) I hope I can take a class with Hong Kiat as my TA again.
- Hong Kiat the TA for this course helped us with understanding the material and was available to respond to students and explain concepts and he always made time to help students even beyond assigned office hours.
- I wish more TA's were like this. Super involved, graded super fast, very helpful on piazza. great attitude. thank you for making this class easier.
- The TA was very helpful during Office Hours, and although he was stricter on the homework grading, it was fair and helpful to understand the material. His discussion supplements were thorough and very helpful to review the material. Overall, he did a great job with this class and made it a lot more manageable.
